

You're Invited to Join TechnoServe's Global Advisory Council

What is the Global Advisory Council?

By joining the Global Advisory Council (GAC), you will be welcomed into a community of members from around the world who share in, and support, the mission of TechnoServe. Members of the GAC provide financial support while acting as ambassadors to advance TechnoServe's mission of helping hardworking individuals lift themselves out of poverty throughout the world.

To thank you for your generosity—if you so choose—you will be recognized on our website and in publications as a GAC member. You will also be invited to participate in events with other members and receive special updates about our work and trends in international development.

Membership in TechnoServe's Global Advisory Council is designed to enable you to:

- Connect with other TechnoServe supporters through events
- Receive recognition for your outstanding support
- Learn more about our current goals, impact, and challenges
- Better understand the impact of poverty in the countries where TechnoServe works

"I very much enjoy supporting TechnoServe and participating in the GAC. It connects me with a great organization which addresses issues in a way which helps people to improve their living standards themselves. The recent trip to Chile was again a fantastic experience... Visiting projects took me to places I would never see as a tourist, it showed me the real world and situations of the local people.... I am already looking forward to the 2016 trip."
