

Request for Proposal (RFP) ***Embedded & Independent M&E Services***

Date: October 1, 2020

Subject: Request for Proposal

TechnoServe Inc. (TNS) – Arlington VA, invites your firm to participate in this competitive solicitation for pricing, delivery and terms of potential sale on the following service for the TNS Coffee Practice.

I. INTRODUCTION

TNS is an independent, non-governmental organization providing professional support to smallholder farmers across a multitude of value chains, including both food and cash crops. By providing targeted training and forging market linkages, TNS seeks to improve the livelihoods of smallholder farmers.

II. BACKGROUND

TNS Coffee Practice is an area of excellence that has projects within the coffee sector across South America, Latin America and Caribbean, East Africa, and Southern Africa. The Coffee Practice implements activities across the coffee value chain from agronomy support to trainings on sustainability standards for processors.

III. GENERAL REQUIREMENTS & SCOPE OF WORK

TNS seeks a contractor that can perform a wide range of monitoring, evaluation and learning services to measure and demonstrate TNS's impact and progress toward achieving the outputs and outcomes of its coffee projects with a geographic focus on East Africa and the Caribbean, but not limited to this scope.

TNS seeks to enter into an Indefinite Delivery, Indefinite Quantity (IDIQ) umbrella agreement with a contractor under which task orders will be issued according to the specific project and required support. See Attachment A for a projected list of task orders to be delivered under this IDIQ in 2021.

TechnoServe has already identified a number of coffee programs that require support through this framework agreement. Geographies may include any country in which TNS has operations, however work is expected to be primarily in East and Southern Africa including Ethiopia, Kenya, Rwanda, Zimbabwe, DRC, and Uganda.

Below are example activities that the contractor may be requested to perform under this IDIQ:

1. Manage the overall monitoring, evaluation, and learning function through strategic planning, digitization, and systematization of policies;
2. Oversee and coordinate the implementation of ongoing evaluations, such as best practice adoption surveys, baseline and endline surveys, and yield surveys;

3. Conduct required analysis and reporting for donors and corporate partners;
4. Introduce analytical and design-level innovations in order to maximize learning.

Interested firms should develop a technical and cost proposal responding to the two task orders below:

Task Order A: Support to the Coffee Agronomy and Quality Program, DRC

1. **Evaluating the TNS Intervention - Agronomy Training to Coffee Farmers (around 5,000 households total)**
 - a. Demonstrate that farmers that attend TNS training are more likely to adopt best practices for Coffee
 - b. Conduct a baseline and endline Survey for Cohort 2021 with Coffee households, sample size to be defined. The baseline survey would be conducted in Q1 2021 and the endline survey would be conducted in Q1 2023. Field data collection would be made by the in country Monitoring, Evaluation and Learning (MEL) program team, all other responsibilities would lie with the applicant.
 - c. Survey to include (i) socio-economic modules, including individual and societal perceptions of regenerative agriculture (ii) best practice adoption for coffee iv. Design should exploit variation in attendance to demonstrate that high attendance = high probability of adoption

Task Order B: Support to the Quality and Sustainability Program, Ethiopia and Kenya

1. ***Demonstration Plot yield survey:***
 - a. Evaluate the impact of good agronomy practices on the program demonstration plots. Approximately 30 plots to be evaluated.
 - b. Conduct a survey in Ethiopia to measure yield over the 3-month harvest period on a selection of demonstration plots.
 - c. Design the survey instrument, back-checking system and training.
 - d. Monitor the data and provide feedback
 - e. Completed the analysis and report learnings.
 - f. Survey data will be collected by an independent field team.
2. ***Develop insights from analysis of Ethiopian annual coffee wet mill sustainability audit surveys which cover social and environmental responsibility. (Approximately 150 wet mills to be audited)***
 - a. Prepare the survey audit on tablet. Data collection will be conducted by the field team.
 - b. Monitor survey progress and data quality.
 - c. Analyze audits conducted at coffee wet mills for a period of 3 years, to show progression of adoption.

IV. COST PROPOSAL REQUIREMENTS

Cost proposals should detail all costs required to complete the task orders including personnel and other relevant costs. Bidders should indicate personnel staff daily rates along with illustrated level of effort in

days per staff for the sample task orders indicated above. Bidders are expected to include the following staff to support the implementation of the aforementioned task orders:

- Project Lead
- Research Associate
- Data Operations Associate
